## The Pantry Catering

The journey started by taking on a small sandwich shop on a busy high street which had been established since 1981. With big ambitions for the business we started to change things straight away and within the first 6 months we were catering for companies and events that we never thought we could attract in such a short space of time.

Over a decade later and we've continued to broaden the business and now supply some of the country's most recognisable companies with various services such as corporate buffets, staff lunches and even cater for their major event days where we have fed up to 20,000 people!

We have also expanded into schools where we provide daily meals for a number of schools across the borough.

Liquid mustard, mustard powder and mustard seeds fall into this category. This ingredient can also be found in breads, curries, marinades, meat products, salad dressings, sauces and soups.

Not to be mistaken with peanuts (which are actually a legume and grow underground), this ingredient refers to nuts which grow on trees, like cashew nuts, almonds and hazelnuts. You can find nuts in breads, biscuits, crackers, desserts, nut powders (often used in Asian curries), stir-fried dishes, ice cream, marzipan (almond paste), nut oils and sauces
- ☒ **Nicole Cannot Eat Peanuts**

These seeds can often be found in bread (sprinkled on hamburger buns for example), breadsticks, hummous, sesame oil and tahini. They are sometimes toasted and used in salads
